TITLE:

Resolution of the Mayor and City Council Authorizing the City Manager to Extend the 2006 Street Resurfacing Contract (\$125,000)

SUPPORTING BACKGROUND:

On January 25, 2006, the Mayor and City Council authorized a contract for the 2006 Street resurfacing program with D&F Construction.

This resolution is for an extension of that contract to resurface Main Street from Bright Meadow Drive (near the Lakelands Park Middle School) to the entrance to the old National Geographic Building.

The surface course on this section of roadway has failed. The type of pavement failure is commonly referred to as shoving. With shoving the surface course loses its bond with the base course and is moved by traffic loads. The failure occurred during the construction of the middle school while excess topsoil was being hauled off the site and fill material was being hauled to the site. We have been working with the Montgomery County Public Schools (MCPS) to resolve the problem and they have agreed to reimburse us for half of the cost after the work is completed.

The work is estimated to cost \$125,000 which includes about 10 percent for unexpected contingencies. Funding for the project is available in CIP 83-1 (Street resurfacing).
